# KRRISH

**B.Tech Computer Science Student | Full-Stack Web Developer**

India | [Phone Number] | [Email Address] | LinkedIn: [LinkedIn URL] | GitHub: [GitHub URL]

## PROFESSIONAL SUMMARY

Third-year B.Tech student at **Thapar Institute of Engineering & Technology** with a strong interest in software development and full-stack web development. Experienced in building web applications using **HTML, CSS, JavaScript, React.js, Node.js, Express.js, MySQL, and MongoDB**. Familiar with Data Structures & Algorithms and core computer science subjects. Seeking software development and web development internship opportunities.

## EDUCATION

**Bachelor of Technology (B.Tech) - Thapar Institute of Engineering & Technology**
2024 - 2028 (Expected)

## TECHNICAL SKILLS

| | |
|---|---|
| **Languages:** | C, C++, JavaScript, SQL |
| **Frontend:** | HTML5, CSS3, JavaScript, React.js |
| **Backend:** | Node.js, Express.js |
| **Databases:** | MySQL, MongoDB |
| **Tools & Technologies:** | Git, GitHub, REST APIs, JWT, npm |
| **Core Concepts:** | Data Structures & Algorithms, DBMS, Operating Systems, Computer Networks, OOP |

## EXPERIENCE

**Web Development Intern - Uplyx Solutions**

- Completed a Web Development Internship focused on practical web application development.
- Worked with **HTML5, CSS3, and JavaScript** to develop responsive web interfaces.
- Strengthened understanding of frontend development and web application structure.
- Gained practical experience applying web-development concepts to project-based tasks.

## PROJECTS

**QuizForge - Online Quiz System**
**JavaScript | Node.js | Express.js | MySQL | JWT**

- Developed a full-stack online quiz platform with user registration and authentication.
- Implemented quizzes across multiple categories with timers and attempt tracking.
- Built backend APIs using Node.js and Express.js and integrated MySQL for persistent storage.
- Implemented password hashing, JWT-based authentication, and result export functionality.

**EduMetrics - Student Management System**
**HTML | CSS | JavaScript | Node.js | Express.js | MongoDB**

- Built a full-stack application for maintaining and managing student records.
- Developed add, update, search, filter, dashboard, and academic-information features.
- Connected the application to MongoDB Atlas and developed REST APIs with Node.js and Express.js.
- Implemented reporting and data-export functionality.

## DATA STRUCTURES & ALGORITHMS

Practicing DSA using **C++**. Familiar with arrays, searching, sorting, prefix sums, two pointers, and sliding-window techniques; strengthening problem-solving skills through coding practice and LeetCode.

## RELEVANT COURSEWORK

Data Structures & Algorithms | Database Management Systems | Operating Systems | Computer Networks | Design and Analysis of Algorithms | Object-Oriented Programming

## STRENGTHS

Problem Solving | Quick Learner | Web Application Development | Debugging | Team Collaboration | Continuous Learning
